In view of the fact that the camp is arranged for brigade manoeuvres, the War Department does not consider it expedient or advisable to send only one regiment here. General Wother-spoon says, however, that if the two regiments now in Colorado can be taken from the strike region in time, the plans for the camp will be carried out. But, he states in his letter, there are no immediate prospects of these regiments being withdrawn. He ad-vises that the people of this vicinity suspend all expenditures or labor which they might otherwise undertake relative to the encampment.

Rev. Frazier Furr, a minister of the Methodist Episcopal Church, South, in Meckingham County, is not claiming all the credit for breaking the long drought through prayer, but that section of the Shemandoah Valley was visited by a settled rain within twenty hours after he had offered a fervent prayer at Church services for rain. The drought lasted forty-seven days, and more rain fell in the vicinity of Harrisonburg a few days ago in twenty minutes than had fallen altogether since May 4. Frequent showers have fallen during the week in other portions of the great Virginia Valley, and the drought has been practically broken. The rains came too late, however, to save the hay crop, and it will be a failure in many localities. Pastures have also been burned up by the hot and dry weather.

CONTRACT PRESENTS WORRYING PROBLEM

American Manufacturers of Bunting
Protest Acceptance of an
English Bid.
Washington, June 27.—The Secretary
of the Navy has another problem in
contracts, this time one relating to the
purchase of a supply of bunting for
the navy. Several weeks ago bids were
received for this material from four
concerns. One was that of an English
manufacturer, and it proved to be the
lowest by nearly \$10,000, as compared
with the next lowest. The English
bid was \$25,617. The next bid amounted to \$34,000, and while an American
concern submitted it, the material was
to come from an English manufacturer. The other bids were much
higher.
The Navy Department has received

The difference in the blds is sufficient to make it necessary to carefully consider the foreign blds, which on this one contract represents a saving of nearly \$10,000, it is pointed out, while the political capital which may be made out of the continuance of the policy of placing navy contracts abroad is something which may not be lightly disregarded.

Together with Detective son, H. A. Newman, who disappeared in March. Together with Detective Gordon Smith he went to Ashland to investigate the meagre clues, and is satisfied that his long search is ended. He is still firm in his belief that the young man was murdered.

Inquest Is Postponed.

Dr. J. Fulmer Bright, acting coroner of Henrico County, decided yesterday to postpone the inquest into the killing of little Eugene Noel, who was struck by an electric car in Highland Park on Friday night, until to-morrow morning. The body of the child has been prepared for burial, and will be sent to the home of its father, John Noel, at Danville, Ky. "Auld Lang Syne," led by John

"Auld Lang Syne," led by John Warner, of the company, and Alvin M. Smith, of the public, the long and successful engagement of the Grayce Scott Company came to a close at the Bijou Theatre last night.

After the afternoon performance, which was witnessed by a packed house, an impromptu reception was held by the members of the company, and so few were the "regrets" that it was late in the afternoon before the house was cleared. But at night the gaiety, blended with a certain element of sadness, began long before the play of sadness, began long before the play

was over.
Immediately after the first act, one Immediately after the first act, one of a group of men who have secured front seats at the Bijou on Saurday night for years, stood up and called for Mr. Newing. Miss Scott, Miss Dudley and Mr. Newing were called out, and the little girls
handed as many of the flowers as their
arms could hold to the three players, announcing in clear voices that car-ried throughout the house that they were offered by the grateful members of the Lee Auxiliary. It was explained afterwards that Mr. Newing and Miss Scott had not only been extremely gento come from an English manufacturers. The other bids were much higher.

The Navy Department has received protests from American manufacturers and labor organizations against an award of contract which shall seem to favor a foreign source of supply, even when the contractor is an American, who buys the material abroad. It is pointed out that this action will send good American money out of the country for the benefit of European laborers, and deprive the domestic shops and the American workmen of business and wages. The political opponents of the administration in something of a predicament and leave the Secretary of the Navy in more or less of a perplexity.
